Excited to be a part of the 40th Agribition we've decided to offer the most powerful heifer calf to come out of our black program. Yes, she is a Density who has been a no-miss female producer. Rosewall's dam never disappoints and has really turned into a matron in our herd. Her 2009 heifer calf was the best in the pen. MJ Rosewall 1X is a powerhouse - she's tanky but moves out like a cat and is oh so feminine throughout. The temperament of this calf is a junior's dream. I believe she will be very competitive this fall and more importantly, will be the kind to go on to produce the type of cattle we all strive for. I have also had some success with this cow family as we sold a maternal sister to Wyatt & Bryce Burnett in the 2008 Keystone Classic Sale.

SERVICE: A.I. ON MAY 2 TO REMINGTON KRUGGERAND 77P. P.E. FROM MAY 20 TO JULY 30 TO NEW FORCE STOUT 47S.

Welcome back Minburn Angus to the Masterpiece Sale. Many folks haven't had the privilege to go to Minburn Angus and see their exceptional set of females their. It is worth the trip. Esther 8W is a daughter of the \$30,000 Geis Blackman 224'05 bull owned with Soo Lone Cattle Co., Bone Creek Ranch & Chris Poley. His progeny have been sought after. Her dam was purchased from the good folks at Eastondale Angus. She has 1 daughter in herd and 2 bulls selling commercially. Now take a real close look at this exceptional female; her feet, disposition, power and femininity are exactly what we are all want in a brood cow.

SERVICE: A.I. ON MAY 8 TO RED TK POUNDAMKER 69Z. P.E. FROM MAY 20 TO JULY 30 TO TK QUANTUM PHYSICAL 61P.

Outcross Genetics!!! What we all are striving for in the Angus industry; so look no further than this great bred heifer offered here today. Red D-Bar Pathfinder 79T was a bull we purchased sight unseen from OBI from Daryll Logeot at Hartney, Mb. He has done exactly what we wanted him to do in our Red Angus Outcross Division. Here is the neat thing, she is bred to Red TK Poundmaker 69Z, a 1990 bull who sire is Red Buffalo Creek VC Chief 105 and dam is Red Six Mile Mabel 418U. This is a very unique bred heifer as you will see. She is made correct, feminine and a very powerful bred heifer. The coupon will be worth the value here!

STRAIGHT CANADIAN PEDIGREE!!

We are all looking for that next great Donor cow with a different twist on paper. Kathleen 34X could be that female you are looking for. We were fortunate enough to purchase some Lookout Pacesetter 258M semen from Roy & Cindy Bjorklund at Fairview, AB. We A.I.'ed Kathleen 415S because we knew the progeny would be very marketable in these times of cattleman looking for new genetics. The EPD's for a straight Canadian pedigree are outstanding.

Another Pacesetter 258M daughter out of our Ellen Erica family originating at Lazy J. We also see a donor cow in WWF Trendy Erroline 34L at Soo Line Cattle Co. This heifer is also a Canadian Pedigreed Heifer for all the generations except the Maternal Grand sire Yellowstone 80M being a son of Vermilion Yellowstone. The rest of her is "Made here in Canada!!" These are different genetics to start your own unique division at home. Not taking anything away about the value of uniqueness, but these 2 heifers are clean fronted, great footed and well balanced heifer calves. Come by the stall to view all 4 of our consignments to this prestigious sale.

SERVICE: A.I. ON APRIL 26 TO SAV FINAL ANSWER 0035. OBSERVED BRED MAY 19 TO TGA BLACKMAN 8311U. SAFE TO NATURAL SERVICE. DUE END OF FEBRUARY 2011.

"A Keeper", "Front Pasture Kind", "Shouldn't be Selling Her", "Sale Feature", "All the Right Genetics" are all phrases used to describe the best animals folks put into sales. If the truth be told this is an extremely good bred that we have been told by more than one person that we should not be selling- "She is too good." We have been proud to show, Duchess 75W-"Roxy" to every person who came by the farm. We love the length, depth, style, structure and temperament of this female. A proud animal that demands your attention, as you pull up to the farm and see her standing in the pasture. Our daughter, Alexis, showed Roxy as a 4-H animal this past year. So, for Alexis, we for sure shouldn't be selling her. However, our view is that we want to buy the best, top end heifers from other folks so why should we not follow that same philosophy when we sell a female? Roxy is a heifer that we believe is a sale feature. She has tremendous potential to make a terrific dam for years to come. Genetically, she has a Kodiak 5R on the top side. Everyone is very familiar with his accomplishments as a proven sire. Topping sales everywhere, highly sought after progeny, solid numbers... and the list goes on. On the bottom

Maxine 3X is a very interesting kind of heifer calf. She is really barreled in the middle with an angular front and deep hind quarter. Her dam, Maxine 11U, is a very impressive young cow. She was one of the top bred females on our farm last year. She is a very attractive eye appealing kind of female that we believe will be working at our farm for a long time. We bred Maxine 11U to Bismarck for calving ease coupled with growth, muscle and power. He did calve out easy and his calves have grown well for us. Bismarck is the sire produced many bull calves that were loved at sales this past spring. The Bismarck females at our farm have been top quality. 3X will be one you will like for her femininity, style and volume.

SFL 40X is a fancy heifer that looked the part from day one. She is out of the Miss Burgess family that has produced well for Earley Brothers and Harron Farms in Ontario. The dam, CO 3L, was purchased from LLB Angus in their 2009 fall sale. 3L's 2009 heifer calf topped the sale at \$9500 to Norseman Farms. The sire of 40X is TT Gridlock the son of Grid Topper that has been leaving his mark at LLB and siring many of the lead off heifers for LLB. With a pedigree like this, SFL Miss Burgess 40X, will make a great addition to any herd.

SAV IRON MAN 8195 - SIRE OF LOT 150

150

Introducing the first daughter to sell out of our Junior performance sire SAV IRON MAN 8195. Iron Man's first calves on the ground have created alot of attention by visitors to the ranch this summer. They are heavy, stout and functional cattle. This comes as no surprise as SAV Iron Man 8195 is supported by the tremendous Bessie Heiress cow family. The Dam to Iron Man is also a full sister to SAV Heavy Hitter the high seller in Schaff's 2007 production sale. SOO LINE PRIDE 0404 is a nicely made, attractive and stout heifer. Pride 0404 would certainly look great with a show halter on. Nonetheless, with the reassurance of the quality and heritage on both sides of the pedigree a promising future absolutely lies ahead.

MICH Annie's Angel 35U is a two year old that redefines the word horsepower, this G13 Steel daughter has power to burn. She is gorgeous uddered, extremely big bodied and stout with that cool look that wins banners. After being one of the most talked about yearlings last fall she is sure to turn heads again with her SAV Wallstreet heifer calf along her side. Any one who has seen her at the farm praises her on the overall phenotype, mass and milking ability. This cow family has an extremely big flush record as well. Her dam was flushed four times last year averaging sixteen embryo's per flush at ten years of age. Consigned by Michelson Land & Cattle & Serhienko Cattle Co. **SELLING: A Future Flush on MICH 35U. We are offering a minimum of six #1 grade embryo's. All flush costs are the buyer's responsibility and expense.**

Remington Land & Cattle have established themselves as the source for Canadian Angus Genetics. Through embryology, the Remington team will have the greatest live animal source of Canadian Genetics.
