A dark red son of LFE Red Tanker 490P. This bull displays smooth muscle pattern on a great set of legs. His sound structure is most evident coupled with a great nature. A real CE beef bull folks.

# Black Simmentals

A very young, functional group of closely bred Black Simmentals. Always buying some of the best bulls available, rest assured that the genetics are superior. All the Black Simmentals were exposed to KBR 816U, a solid black bull whose EPD's are lead off at 0.9 BW. His calves will be looked forward to with great anticipation. Moderate sized, heavy muscled and very sound all describe this marvelous 2 year old to a T. An entire Black & Polled pedigree. KBR 816U is probably Homo Blk & Homo Polled.

# Red Simmentals

The 1st Pen of Red Simmentals all represent sound genetics backed by very nice EPD's. All light BW and positive Milk Numbers. Look at MOBO 109P, Lot 253 for example - a double bred 3C Full Figures with a great +13.5 Milk. The Red Simmental offering are as well very closely bred. Starting with a few premium cows from Lazy S, Lewis Farms, Bar 40 and more recently from SIBL Simmentals. These females are the nucleus of the entire Red division. These females represent a marvelous investment opportunity, their youth, along with their current condition allow for buyers to take a hold on June 23. Steakhouse, Blackedge, No Mercy and The Tank represent bloodlines highly regarded in the Simmental fraternity.
