Roseholm Delia 97X caught Rob's eye, as she is a fancy, well balanced, stylish heifer out of MJLC Delia 2S, a heifer we purchased at the 2006 Northern Select Sale. 2S's first 2 heifers are retained in our herd and Rob figured we could probably part with the 3rd heifer. Either heifer 92X or 97X would probably make an excellent 4-H project.

096X is an embryo calf who is thick bodied, structurally sound, and has great feet. 096X's dam is no stranger to the Northern Sale as we sold 1/2 Interest in her to Dwajo Angus & Mark Holowaychuk in the 2007 Sale. Her Maternal sister also sold in the Red Round-Up. 096X sire is Red Dwajo Joker's Wild 47S who has an excellent track record himself, being 2006 Red Round-Up Club Red Champion.

Hello & Welcome to the Northern Select Sale. 2010 marks our first year as a contributor of the Northern Select Sale and we at Kueber Farms are extremely excited to be apart of such a great sale which represents some of the finest cattle in the industry. Quite a few of our "cornerstone females" originated from this very sale, so we strongly believe in the genetics behind the offering. Since its our Freshman year, we decided to let Rob take his "pick of the heifer calves" for this special occasion and it came no surprise he chose 245X. 245X is a daughter of Objective 3J15, a bull we value for the dimension, muscle shape and carcass merit which are evident in his progeny. 245X is the deepest ribbed, most dimensional, performance orientated female in our pen. The style and raw power of this female make her "one to watch". Her Dam 45S is a sweet fronted, producer female, with a bulletproof udder that never goes unnoticed. This female should excel in the show ring and in the pasture.

The sire, Soo Line Centennial 7218 was purchased from Soo Line Cattle Co. in their 2008 Bull Sale for \$9,000 as the Second High Selling Black Angus Bull. Centennial 7218 has sired a great set of uniformed progeny. He has averaged 93 lbs on his bull calves and 85 lbs on his females to date. Again we go back to the Lavendar family here as well.

SERVICE: P.E. TO WAF ZORZAL 321U FROM APRIL 14 TO JUNE 25.

When we made the decision to take Tom Boy 509R to Agribition we were not sure how he would be received. We knew how good a breeding bull he had been for us and we are very pleased with how good a job he has done for all the herds that had the confidence to use him. 34U is very typical of all the Tom Boy daughters at our place. She is extremely feminine, moderate framed, easy doing with a perfect udder. She has done a good job on her Epic heifer that we have brought to town. She is carrying a real neat service to WAF Zorzal 321U. Zorzal was bred in the Tres Marias herd in Uruguay and was the standout of all the embryo calves that Remington brought to the World Angus Forum.

We try not to follow the fads of the day when it comes to genetics. Our goal has always been to raise functional maternal cattle that are unique to the mainstream pedigrees. We, along with Shane Castle, purchased Epic Encore from Scott Shively, North Dakota. He is line bred Shoshone Encore and is out of Scott's very maternal Eileen cow family. When Rob was up this summer he was very impressed with the Encore heifer calves and how well they looked on probably the worst grass he'd seen all year.

Epic Encore bred over 30 females for us in 2009 and looked like he could have handled a lot more. These two heifer calves are closely bred being out of Tom Boy first calvers and Pacesetter daughters. They are very similar in type and were two of Rob's first picks. If you're looking for easy doing, moderate framed Angus females that are unique in their pedigrees, then we highly recommend these two heifers.

SERVICE: A.I. TO FIGURE 8 ANGUS TOM BOY 509R ON APRIL 16. P.E. TO LSF CANUCK 26U FROM MAY 1 TO JUNE 29.

We have over 30 Pacesetter daughters in the herd and as a group they are hard to beat. The Pacesetter daughters have come to the forefront here in their ability to raise quality offspring regardless of the conditions that nature has to offer. Allegra 39W's pedigree reads like a "who's who" of Canadian bred herd bulls of latter years. 39W's maternal side traces back to Colossal and Tex 16S, two of the great Canadian bulls of their time. A moderate framed, easy doing female that offers some unique Canadian genetics.

When a 2 year old heifer's calf is in the top end of your calves, these are the ones that go on to produce herdsires. 8X is just that – his pedigree has no holes. EPD's are great, birthweight at 78 lbs, weaning off at 829 on Sept 5th. He is sound & stylish. If you're looking to turn a bull out with heifers or cows, have a look at him, or show him if you want.

Here is a thick, deep and very powerful heifer. Phil has told me how much power and quality his Dimler Indeed son is producing. Not unlike his sire, Red Wraz Joe 44U gave us a very high performing, top quality set of calves in his first calf crop. If you want power here's a female that will raise a bull calf and be very competitive in the showing.

We brought to town a pair of heifer calves who's grandsire is Camilla Bandolier 84G. These will be last ones for offer for a while. These females make great herd building cows. 19X is related to our Tex herd sire through the dam. 11J is eleven year old cow that loves to achieve. This heifer is more of the old style Canadian bloodlines. She has depth and width.

39X is a well put together heifer. She is related to last year heifer purchased by Early Sunset. A straight Canadian heifer that has potential for performance. You will find Barbara Rose and Evening Tinge families that are consistent in our herd. Donmac Extra is a bull we wish would have kept more heifers from. He creates a heifer with milk and stamina. She will produce from the get go.

SERVICE: P.E. TO SPRUCE VIEW RENOVATOR 43T FROM APRIL 20 TO JULY 30.

A very fancy, fronted bred female out of the Prospect Adventure 43G bull we have used alot in the past 3 years. We needed to add some old Canadian Genetics back to our herd and he was the answer. He leaves nice, moderate females with great feet and udders. She is bred to a home grown bull in Renovator 43T, a grandson of Geis Daquante 11'03, a senior herdsire for us in the Nineties. The Blackbird cow family has always emerged as a leader at Spruce View.

Schedule of Events or the booking
of hotel rooms for this event.**

TERMS & CONDITIONS

TERMS: The terms of the sale are cash or cheque payable at par. Settlement to be made immediately after the completion of the sale. The right of property shall not pass until after settlement is made. All settlements must be made with the clerk of the sale before any cattle will be released. All monies are Canadian funds.

BIDS: Every animal entering the sale ring will be sold to the highest bidder.

DISPUTES: In case of disputes, bidding will be reopened between the parties involved. If no further bid is made, the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision of all disputes is final.

ANNOUNCEMENTS: All announcements made from the auction block will take precedence over the printed matter in the catalogue. Buyers are therefore cautioned to pay close attention to any such announcements.

PURCHASER'S RISK: Each animal becomes the risk of the purchaser as soon as sold.

INSURANCE: Insurance can be arranged for through the sales clerk.

CERTIFICATE OF REGISTRATION: Each animal will carry a Registration Certificate issued by the Canadian Angus Association. A certificate of registry, duly transferred, will be furnished to the buyer after payment has been made.

ACCIDENTS: Although every precaution will be taken to protect the safety and comfort of buyers, neither the sale management nor the auctioneer assume any responsibility in this matter and disclaim any liability, legal or otherwise, in the event of accident or loss of property.

LIABILITIES: All persons attending the sale do so at their own risk and sellers assume no liability, legal or otherwise, for any accidents occurring in or about the premises.

EXPORT TESTING: Required health certificates for cattle being exported will be provided.
