## CEDARLEA FARMS CHAROLAIS BULLS SELL WITH WINDY WILLOWS ANGUS

**Tuesday, April 3rd, 2012, 1:00 p.m.**  
**at Windy Willows Farms, Hodgeville, SK**

Return address:  
OBI  
#407, 4808 Ross Street  
Red Deer, AB T4N 1X5

# "GIT 'R DONE"

Please accept this as your personal invitation to be with us April 3 for the "Git 'R Done" Bull Sale. After a long run of selling bulls with Wood River Charolais and Borderland Cattle Company we made the decision to move closer to home to be in a position to offer our select bull pen for sale on one day at one location. We thank the Blakes and Chings for the 34 successful sales we participated in and wish them all the best in the future.

Over the past 33 years we've worked hard at selecting genetics that will work for our bull customers. We make it a point to ask what's working, what isn't and find out what the needs of our bull customers are. We base our genetic selections on these needs and feel we have developed a tremendous cowherd complemented by our select herd sires which consistently produce superior bulls that excel in today's market.

The sale bulls have all passed a strict selection procedure based on calving ease, disposition, performance, structural soundness including feet and legs. You will find they are quiet, thick, well muscled bulls with lots of hair. We ensure that our bulls and cowherd meet the highest standards for herd health protocols. The cowherd has been vaccinated with Express 10 Somnugen prebreeding to guarantee that there are no BVD PI progeny. The bulls have been vaccinated with Express 5PHM and Fermicon 7 Somnugen at 60 to 90 days of age and again at weaning. The bulls will be semen tested with the results being available prior to the sale.

We are thrilled to be a part of the Git 'R Done Bull Sale and thank Collin and Michelle for the opportunity to work with them at Windy Willows Farm, Hodgeville, Saskatchewan. It's also a pleasure to work with By Livestock, Helge and Candace By; their expertise is very much appreciated. Please feel free to call Helge or any of the sale staff for information or assistance.

We sincerely thank our previous buyers and look forward to seeing everyone again on April 3. Please feel free to stop by to have a look at the bulls prior to the sale or give us a call anytime to discuss our program.

Garner and Lori Deobald

Welcome to the "Git 'R Done" Bull Sale. This is not a new bull sale but it is the first time for Charolais bulls and I know you will like what you see. With silver calves becoming the market toppers you can get the components to build them right here. Windy Willows have been producing great black cattle for years and using the black cows and white bulls you will get the free hybrid vigor that will add pounds, yield and profit at every level of the industry. Garner & Lori Deobald are no strangers to the Charolais business for the past 3 decades with Garner taking his turn as president of the Saskatchewan Charolais Association, the Canadian Charolais Association and as National fieldman for the Charolais Association for a few years. He knows the people and cattle

and used this knowledge to build a great cowherd and produce the kind of bulls he knows are needed in the beef industry. They built a cowherd using bulls that were proven before they used them. Bulls like NOR Grizzly, CSS Show Boat, SOS Polled Detonator & LHD Cigar. Bulls that were easy calving, sound, and still had great performance and maternal traits all in one. They then put some great young sires on these cows and here are the results. You have the opportunity to select bulls that will give you no calving difficulties, their calves will be up and going and have great EPD to confirm what you are seeing. We look forward to seeing you on April 3rd at the Windy Willows Farm and if Candace or I can be of any assistance before the sale or on sale day, please don't hesitate to give us a call. We would be more than happy to help you find a bull that is right for your program.

Sincerely,  
Helge & Candace By

GRAND CHAMPION  
Edmonton Farmfair 2011

GRAND CHAMPION  
Canadian Western Agribition 2011

NATIONAL RESERVE GRAND CHAMPION  
Canadian Western Agribition 2010

Once in a lifetime a bull of this caliber comes along. Grid is the complete package; his make up is as near to perfection as you'll find in any bull no matter what breed. Impeccable form, structure, balance and remarkable eye appeal. A testament to the excellent quality bull that Grid is comes from comments made by countless seedstock producers from other breeds; the most complete, well balanced bull that would be a standout in any breed. We had the good fortune to buy possession in this exceptional

young bull in 2010 and the results have been outstanding to say the least. His first calf crop has been stamped with the same style, form and function. Grid is an easy calving bull having used him on heifers with great success; we expect the Grid sons to follow suit. The Grid sons are thick, easy fleshing with a good hair coat to boot.
