

Cinder Angus

Welcome to the 12Th Annual On Target Bull and Female Sale. It is always an enjoyable time of year for all of us and we get a chance once again to reconnect with our customers and friends alike. It is a privilege and a good time to work with Emery's, Jones', Smith's, and Meunier's. They keep things fun and add some very useful knowledge to the cattle industry.

Another year has gone by and we have seen an abundance of pasture and feed as well as rising prices for cattle and it has given producers more optimism than we have witnessed for a long time. With a fresh new outlook in our business, we would like to offer progeny from our proven herd sires represented by Smartin' Up and Steeler, that was calf at side of the 2005 National Grand Champion Female, as well as some exciting new sires; a big performance sire, Gonna Be Famous and a bull that is the maternal brother to the calf at side of Agribition's RBC Supreme Champion Female, Red Lazy MC CC Detour, a neat outcross bull that now resides at Wildcat Creek Ranch in Kansas.

On behalf of Cinder Angus, we would like to give a big thank you to all the bidders and buyers on our cattle purchased over the years, all of those who have supported us and helped us with our endeavours and in achieving our goals. We are confident that there is a bull that will fit everyone's needs and strive to produce bulls that will work for our buyers under all conditions and any circumstance. Please don't hesitate to call or come by to view our bulls and their dams before the sale, we're sure that Brynne and Tavi would love to show them to you. Thank you again for all the support in past sales and we look forward to your appraisal on our offering on March 13th. See you there!

Brad, Nicolle, Brynne & Tavianna

This will be the last of the natural Smartin' Up calves, but his legacy is still being written with many great cattlemen substantiating his calving ease and unparalleled performance. Smarty has earned his way to the top of our herd by way of production and genetic value, ranking in the top 1% for weaning and yearling EPD's. His calves haven't disappointed us and certainly won't disappoint you with their length, fleshing ease, and superb temperament.

RED LAZY MC CC DETOUR 2W - SIRE OF LOTS 65 & 73

RED LAZY MC BESS 12S - DAM OF RED LAZY MC CC DETOUR 2W

Detour is an exciting new AI sire, walking at Wild Cat Creek, Kansas, and is the maternal brother to Lazy MC CC Sparkle 2U, who was the heifer at side of Bess 12S, the 2008 RBC Supreme Champion Female at Agribition. We took the opportunity to use these new genetics in our program and as a result we have chosen a Detour son as our next Junior Herdsire. We have two other exceptional sons of Detour that we are confident will meet your appraisal.

RED CINDER ROCK SLIDE 33Y

CIND 33Y JANUARY 06 2011 #1637889

15	31	26	24		17	14

Rockslide is as heavily muscled as they come. The shape that he carries throughout is more of what our industry needs. He has an impressive spring of rib and a very apparent fleshing ability with a WW of 814 lbs and YW of 1310. His structural capacity dictates that he is built for performance and early maturation with exceptional testicle development. Rockslide has a very quiet disposition, which made it effortless for us to halter break. This first heifer's calf is a chance to "obtain the gain" for anyone's herd.

Legend is aptly named for our expectations of him. His sire, Famous, has exceeded our expectations and his dam, Cheta 93S, has also followed suit. Cheta 93S, a dam that we admire for her depth, power, and structure, has produced outstanding calves that have gone to Cole Goad and Elmer Benning. Legend has a pedigree of potential with producers like Blaze V415, Gold-Bar King, New Trend 22D, Bodacious and the maternal strengths of the Freyja family. His 91 lb BW and 1286 lb YW will make him a herd changer and true pound producer. Don't miss the opportunity to own a tremendous calf.

Reboot has the foundation you can build on, just check out the potential in his epd's. His sire, Smarty, ranks in the top 1% for WW and YW in the industry and we expect this young bull to carry on the tradition, posting a WW of 850 lbs and YW of 1317 lbs. Reboot's dam is a Grand Canyon daughter out of our herd building sweetheart and donor cow, Red Howe Ms Heather DDH 101G. The only decision left is which cows to breed him to.

Celebrity is another super Famous calf and with his deep, dark red coloration and attractive appearance, it was easy to make him part of our show string. His sharp front and deep rib make him a notable combination of calving ease, performance and phenotype. Celebrity's pedigree is comprised of many prominent female producing sires such as Boomer and Pie Lo Canyon. So take a look, here's a bull that you'll want to keep all replacements from that you can.

Off Road is a great combination of Red Lazy MC CC Detour and a daughter of Red Cinder Pursuit 101S, who is also the sire of Pursuit "Sox" 81W. Off Road possesses the smooth, calving ease style with no shortage of capacity and testicle development. He carries the genetics for structural soundness, unmatched udder quality, and a great temperament coming from both sides of his pedigree. This will be the kind of bull that you'll want to keep replacements from.

Pursuit is a free moving, athletic bull that has tons of eye appeal. His abundant, dark red coat, structural balance and smooth shape are just a few of many check marks on our criteria list that this calf possesses. Here will be the chance to purchase the only Red Lone Stone Pursuit 81W (aka "Sox") bull calf. Sox was widely talked about in 2010-2011, turning many heads at the National Western Stock Show in Denver, and at Agribition, where he was named Reserve Grand Champion Bull. He is being extensively used in Alberta, Saskatchewan, Bone Creek in SK, Silver Spur in WY, and Jefferies in OK. This is an opportunity to get in on the ground floor of owning a Sox sired calf, who by the way, also sired a female that was Senior Heifer Calf Champion.

Poker Face was Brynne's 4-H project this past summer and she renamed him "Steamer", and rightfully so. Steamer was born with extra birth weight and was as long as a steamer train. His sire and dam combination have given him great numbers and should produce some real diamonds in someone's program. His sire is a bull that was lost this summer, Red Dwajo Wildcard 119S, so this will, unfortunately, be his last set of calves. The maternal side of his pedigree is strong; his grand dam was a donor cow which also has an offering in the sale.

Here is a bull that will service a few more head this spring, he's an off age, long yearling born in the fall of 2010. Bankroll's dam has been a long time resident here and has produced many phenomenal calves, but this will be her last, so take advantage of her tremendous production value and maternal strength. Progeny have sold to Northline Angus, Royal Valley Cattle Co., Powerhaus Angus, Larry Bartz, and Breitkreitz's. His sire, Steeler, was the calf at side of Freyja 91M, who sold to Glengary for \$25 500, and was Reserve National Grand Champion Female in 2005. Bankroll has had impressive growth with an 82 lb BW and a weight of 1610 lbs on January 23rd, with a minimal amount of management. He will be an easy find in our pen with his great shape, depth, length and laid back disposition.

Aces Up is another powerhouse 'Steeler' son, born September 11, 2010. Have a look at his BW of 76 lbs, a calving ease candidate for sure, and whose age will allow you to breed a few more this spring. He is a great footed bull with lots of eye appeal, super muscle pattern and plenty spring of rib. His dam, Red Cinder Beula 131R, is a favourite Mr "E" daughter of ours that has put females into the herds of KC Stock Farm, and Walnut Springs Ranch, MI.

This bull might just be your chance of a lifetime. There aren't too many R.R. Hero 6267 calves kicking around, much less one this young. His exciting pedigree is a gold mine from the maternal side with Revival 10Y, Dinter Pride, Peak Dot Puckett and the Elba 412 cow. Conqueror will compliment both cows and heifers with his smooth shoulder, muscle shape and structure. He really has it going on with extra eye appeal and genetic merit. He is an opportunity worth seizing for any black program.

SIBL Simmentals

2012 is upon us and so are some very exciting times in the beef industry. The outlook for fat cattle looks excellent and with that so does the feeder calf market. It is once again an honour to welcome all of you to the 12TH Annual On Target sale. We are very privileged to be part of this great group of breeders and friends. Our offering this year is larger in numbers then it has been in the past but, I feel the quality is higher as well. With almost 2/3 bull calves born last year this has allowed us to offer you the buyer more bulls for your appraisal. Our offering contains some outcross genetics as well as popular mainstream, proven ones. If we can be of any assistance in your bull selection or you wish to view the bulls prior to the sale do not hesitate to call. Once again thank you to everyone who has supported our program in the past, it is greatly appreciated.

7167T has done everything we could have hoped for and more in our program. His sons are big bodied, sound structured, easy fleshing herd bulls and his daughters are proving to be great mother cows. His sire group this year is highlighted by three ¾ brothers all being out of Klaus 33k sired dams, these three bulls are all a bit different but are all good. You will see his power come through in his grandsons as well. 7167T is one of the soundest bulls you will find anywhere and consistently transmits this into his progeny. If you are looking to put together a sire group, I strongly recommend taking a serious look at the group of 7167T sons.

This is our first set of calves sired by 11W and we are very impressed. The Whistler calves were very consistent in their birth weights, color and type. 11W definitely stamped his calves. We only had a few born last year but we were so impressed we bred all of our fullblood cows to him for the 2012 calf crop. Whistler 11W was a feature bull for Kuntz Simmentals the year we purchased him out of their sale. Whistler is backed by one of the very top cows in the breed and we were able to view many females all stemming back to this same cow family and they were flat out awesome. We believe that Whistler 11W is the bull that will take our fullblood program to the next level.

119Y was a member of our show team last fall and he had plenty of admirers at the stall. 119Y is big hipped, big topped, with plenty of middle. 119Y is closely bred to 122Y as their dams are half-sisters. Again this shows the power and importance of cow families. 119Y is very similar in his kind to the bull that was so popular last year selling to the Sargents. If you want a bull that is going to sire calves that push the scale down in the fall 119Y is the bull you need.

111Y is a $\frac{3}{4}$ brother to Ironman 110Y. 111Y is packed full of meat and muscle and is that bull that catches your eye when walking through the pen. The Klaus 33K cross with 7167T works everytime as you will see in the three $\frac{3}{4}$ brothers we have on offer. They are all a little different but they are all good. 111Y is the meat wagon of the three and will sire a set of calves the buyers will not be able to get enough of. 111Y's dam has done a very good job for us with a number of daughters in the herd and a son working for Horn Valley Trucking and numerous grandsons have also sold through this sale.

125Y is my pick of the fullblood bulls in our offering this year. I feel 125Y is one of the best fullblood bulls we have offered for sale. 125Y is very heavy muscled, thick topped and deep sided. He has a big strong foot, very correct leg structure and is mothered by an awesome cow. You would have a hard time to draw a more ideal udder then what this cow has, excellent teat size and placement and perfectly square and tight made. From his moderate birth weight to his strong weaning weight and his awesome phenotype 125Y is a bull that will impress the most discerning cattlemen. 125Y is a definite sale feature.

132Y is our feature black bull this year and may in fact be the feature bull of the whole pen. 132Y was our lead of show bull last summer and fall and was admired by many top cattlemen. When you analyze this bull you will be impressed by his overall dimension and balance. 132Y is big ribbed, deep sided, huge over his top and through his quarter. He has a tremendous set of feet and legs and the presence of a true herd bull. If we were in need of a black bull in our program 132Y would not be in the sale as I think he is that good. The Superior sired cattle are starting to make their mark across the country and 132Y will only add to this awesome story. Take hold of the opportunity to purchase one of the really good black bulls available this bull sale season. Homo polled test results will be available prior to the sale.

101Y is a really long spined, thick butted bull with a different pedigree. This bull was purchased in dam from Yellow Rose Cattle Co. out of the National Trust sale. The Heavy Weight daughters are noted for having great udders and being great cows. 101Y's dam is sound footed with a perfect udder and tons of middle and is the kind of cow that will raise herd bulls for many years. Step into this moderate birthed good performing bull, he will work.

Here is a dark red heavy muscled calving ease bull, sired by Pharao who we have used successfully on heifers for a few years now. Add in Metro on the bottom side for another shot of calving ease and some great maternal qualities and you will want to keep all the daughters. We have sold Pharao calves through this sale and the Fleckvieh equation sale that have been very well received. This bull should work on heifers, but has enough power to go out with the cow herd as well.

Ironman 110Y is the powerhouse of this year's offering. 110Y is loaded with potential; he is extremely deep sided, long bodied with lots of hip and muscle. He moves out on a very correct leg with a big strong foot. The calves sired by 110Y are sure to be impressive as his mother just does a great job every year and his sire has done nothing but good for our program. We have sold a full sister to 110Y to the excellent program of Kopp Farms in Manitoba and have a full sister in our herd. If you want to add some performance and eye appeal to your calf crop 110Y is the bull for you.

115Y is a bull that I would pick from our offering as a sure fire calving ease bull. 115Y is sired by Shear Force who is noted for calving ease as well as making great females and he packs a ton of carcass traits. 115Y was raised a bit different from the rest of the group as he was at side of my nephew's 2 year old 4-H cow and didn't join the rest of the bulls until later in the summer. This definitely influenced his weaning weight. With that said 115Y is sure to calve easy and leave some excellent females as he is backed by a very good cow family and has the 7167T influence on the bottom side of his pedigree.

118Y is a bull I am very high on. Red Iron 118Y is long sided, deep flanked with a big square hip and lots of muscle. 118Y's dam was purchased out of the Shologan dispersal sale and what a buy she was, with a great udder, tons of middle and just flat good. 118Y has a very correct leg and a great set of feet and moves out very freely. 118Y was in the show pen but was brought in a bit late so he didn't make the trip to Farm Fair. Red Iron is a bull that will do a great job siring a top set of steer calves and females that you will not want to part with.

Here is an impressive individual that we think has a lot of potential. 127Y is our only bull in the sale sired by 911W who was one of our high sellers two years ago going to the good herd of the Lovich family. We retained a share in 911W to use in our program as his dam is one of our most productive black cows raising our high selling heifer calves the last two years in a row. With Shear Force anchoring the top side of his pedigree 127Y also adds some calving ease and carcass numbers not to mention the tremendous maternal potential. 127Y is long spined, big hipped, smooth shouldered and very eye appealing with the added chrome he has on his face. If you are looking to add some jam into a set of calves with lots of eye appeal 127Y is the bull for you. A maternal sister sold to Lazy Diamond A Simmentals that they are very happy with.
