**FEATURE:** This bull is a looker! He has been a favorite around here because of his style, volume and wonderful disposition. His dam, Lucy 10W, is one of the many Final Answer daughters coming into production at WWF, perhaps even the best one. Why? – Not just her good looks, it might have something to do with the fact that 53Y was the highest indexing calf at weaning at 129, first out of 69 bulls. Rod Wendorff commented when scanning that this bull had a really good carcass and when the numbers came back we can see why, %IMF of 127 and REA ratio of 111, a difficult combination to achieve. This bull does a lot of things really well.

**SELLING 2/3 INTEREST AND FULL POSSESSION.**

# 3 FLUSH BROTHERS OUT OF THE CAR CATHERINE 028 COW

These 3 flush brothers represent a unique opportunity to obtain the genetics of one of the most sought after proven sires in Canada, HF Kodiak 5R. Not much more needs to be said about him! What makes these sons even more appealing is that they are out of the super producing, CAR Catherine 028, the only daughter of Lost Lake Iceberg in Canada. Catherine has been a solid producer with numerous sons working, 3 daughters in the herds of Abacus Angus, KBJ Round Farms and Jones Land & Cattle and a granddaughter at Soo Line Cattle Co. The picture of Kodiak 12Y has been used in our advertising but there has been much discussion as to which bull is the best. You be the judge and take your choice home!

Kodiak 1W came to Windy Willows as the top selling bull in the 2010 Everblack Common Sense Bull Sale. He is a  $\frac{3}{4}$  brother to the Kodiak 9194 bull at Genex. We were looking for a calving ease bull with thickness and eye appeal and we found him in 1W. He was used on heifers that first year and he did a super job with many of his first calves selling in our sale last year at the side of their 2 year old dams. We've heard many good reports from their new owners and are very pleased with the sons we have in this sale.

**FEATURE:** It's not often that you get a chance to purchase a son of Right Time, known as the best female maker in the breed. The dam, Jackie 12L, is an Elite Dam and an Alliance daughter, providing more maternal power. Her most noted son is the Cingular bull, a very successful herdsire for Minburn Angus. If you want to build a cowherd, this bull should be high on your list.

Main Street came to Windy Willows as the \$13,250 high selling bull from the Minburn Bull Sale. Main Street is powerfully made with plenty of bone, a big round foot and a burly masculine carriage. He is long bodied with a strong top, wide rump, and a long thick hair coat. His sons are made exactly the same way and he stamps them all. He sires more performance than any bull we have ever used and currently ranks in the top 1% of the breed for Yearling Weight EPD at +107. While the Main Street sons are cow bulls, their birth weights are very consistent. Main Street has sired over 150 calves here and we have never assisted a cow that was bred to him. Unassisted calving is expected from all our cows. His daughters are broody females, moderate framed with plenty of capacity, well attached udders and abundant milk. With his first daughters having weaned their first calves, Main Street's Milk EPD jumped to +34, putting him in the top 1% of the breed for Milk.

We first saw Quantum 83W as a calf at CWA and we really liked what we saw. Big hip, lots of hair and excellent scrotal development. We knew his dam well as Troy selected her from us at the Grasslands Sale and she had already produced a high selling full brother to Jones Land & Cattle. We were fortunate to purchase Quantum 83W as the high selling bull in the Blue Collar Bull Sale where he was the definite sale feature and high seller.

This bull is the highest performing son of Quantum. He is also one of those rare bulls that excel in both ribeye area and marbling. He has the highest adjusted REA in the offering and ratios 118 for %IMF. His dam, Keepsake 43T, is one of those good Iron Man daughters we so highly value and she has already produced a son that sold to Brian & Edith Guilloux.

Troubadour came to us as one of the high selling bulls in the 2009 Crescent Creek Bull Sale where he was highly sought after. We used him heavily both naturally and by AI. He has proven to be an easy calving sire and his sons exhibit his attractive but smaller head and smooth front end. He sires plenty of muscle and capacity. His daughters are smooth made and feminine and we look forward to them entering production.
