

Welcome to the 20th Annual Bone Creek Ranch Bull Sale!

NEW SALE, NEW LOCATION!

On behalf of all of us at Bone Creek Ranch (The Alexanders), I would like to welcome and thank all the bidders, buyers, and friends for their support over the years. We are forever grateful. We are now entering our 3rd decade of selling bulls (how time flies). It seems like yesterday we were getting ready to haul bulls to Weyburn in March of 1992. We are grateful for the opportunity to meet so many new faces that have become friends over the years. Thank you, we are so lucky. The passion for agriculture and the healthy, rural way of life drives us all and hats off to all that have endured. I truly believe there is no better way of life! Especially now that the boat has finally docked for both grain and cattle producers.

New for 2012

On the family side Cally and Jason got married and Tricia and I are proud grandparents to a beautiful grandson by the name of Aiden. I'M SURE HE WILL BE A FARMER. Joni finished her 2 year Ag. Management course at Olds and is now home full time ranching. Tricia took early retirement from Nursing after 34 years (Now she only has one full time job). Curtis is in Grade 9 and is definitely the machine operator! Myself, I've now grown a full head of hair and feel like a 20 year old, but I'm told I'm not! (HA! HA!)

New Location: After selling for 9 years with P Bar 3, it's now time to move the sale closer to home. A new place and new faces are always exciting! It's great to work with the Cowtown crew as their knowledge, expertise, and respect within the community is certainly respected. Any of the Cowtown crew will be more than willing to help with advice or just a second opinion in regards to the offering. Brent Weiss will handle the Auctioneering as well as consulting on possible bulls that may fit your program. Rocky Houff from Medicine Hat who is also a partner in Cowtown will work as a Ring Man and sales consultant. Wayne Bowyer (Manager) and Jim Wilson are also available to assist buyers for an unbiased second opinion as well as handle orders. Mark Stock from Hazlet will be working ring and taking orders. Should you need a very qualified, unbiased and extremely frank opinion in regards to the offering, call Mark. Rob Holowaychuk with OBI will handle the sales management duties as well as orders. Rob's years of experience and knowledge of Angus cattle is invaluable. If any of you want to know about the mothers behind the sale bulls, Joni is the one to call. I even ask her! I believe we have an excellent Sales Management Group to help you in any way with the offering or just a second opinion. Ask them questions!

Our focus at Bone Creek Ranch Angus!

Our mandate is to produce rancher, range raised bulls that will service lots of cows, add lbs, be trouble free and have built in longevity. We focus on building a cow herd that is trouble free in every way. We stress cows that are good mothers, easy to handle and safe to be around, udders that are as perfect as we can get, structural correctness & production at optimum levels. We want cows that do it on their own. We are all getting older and our demands on our time are ever increasing either by larger operations, off farm commitments, or grand kids. Nobody wants problems (especially me!). It's amazing when you focus on cleaning up your cow herd how much more fun Ranching becomes. We want as much performance as possible but are not prepared to sacrifice calving ease and calf liveability. TALK TO JONI ABOUT COW FAMILIES TO SATISFY YOUR SPECIFIC NEEDS.

Sight unseen orders:

Any of the Sale Crew, Sales Management (Rob Holowaychuk), Joni and myself are more than happy to discuss the offering. We can have you on the phone or live on the internet (Call Wayne Bowyer at Cowtown 306-662-2648 to handle your hook-up). We will handle your order in confidence and deliver free of charge. If the bull doesn't suit, no questions asked, we will load him on the trailer and you only pay when satisfied. Call Graham 305-295-4050 to discuss further.

The Outlook!

Congratulations to all that have endured! This cattle cycle will go down in the record books for being higher and longer then ever before. The U.S. drought is huge, the growing prosperity & population in the world wants to eat better, and the aging population of the cattle people will definitely produce less. They will all contribute to longer, better times ahead. I salute everyone in the cattle business; it is FUN to be a Rancher! Good luck in 2012 and beyond. Remember your limitations will only be curtailed by your imagination! Thank you in advance for your interest and attendance. Remember: Rib Eye at noon prepared by Ann & Carson Currah. They do a fabulous job. Second to none.

For internet live viewing and bidding of the sale go to www.cowtownlivestock.com (phone Wayne Bowyer 306-662-2648 for details). To view the catalogue online go to www.cattlemanagement.ca and click on Sales (Bone Creek Ranch Angus).

See you March 23rd, 2012.
Graham Alexander

DELIVERY

Free delivery to central points within 150 miles immediately following sale between March 23 and March 31 – delivery beyond at cost of fuel. Free delivery only applies to purchases over \$2,000. Purchases below \$2,000 at cost of fuel. Bulls left to be cared for must be insured and a \$2.00/ head/ day charge will apply after April 1st.

**Take your purchase home sale day and receive
\$50 off each bull.**

BULL GUARANTEE – NO HASSLES!

All bulls have undergone a complete semen and reproductive examination. They sell as guaranteed breeders. In accordance with the CAA breeders guarantee. Freight on the replacement bull is the responsibility of the

buyer. All bulls returned to Bone Creek Ranch for credit must be in good condition. We recommend the buyer consider buying insurance on their purchase. All warranty and responsibility is limited to replacement of the bull in question and is acknowledged by the buyer as a condition of sale and in no way warrants loss of calf crops. Physical injuries and mis-management are the sole responsibility of the buyer. ALL BULLS RETURNING TO BONE CREEK RANCH for care after the sale must be insured.

0153 is certainly worthy of his Lot # 1 spot. Look at the bull. He has as much muscle, top and meat through the loin as any beef bull regardless of breed or color. Stand behind 0153 and examine the muscle through his stifle and hock (HE IS A BEEF BULL WITHOUT QUESTION). 6720 sires consistent thickness through all his calves. 6720 will add 5-8 lbs. to the birth but will calve easy to mature cows. The bonus to 0153 is his maternal side. Dam: goes back to Marias on the top who sired moderate, easy fleshing cows with perfect udders. 353U is sired by Idared Starfire who unquestionably sired females that lasted and were structurally perfect. 353U raised calves until age 18 (her udder and feet were exceptional and was only culled because she slipped on the cement pad and stifled herself). 8140 on the bottom side was also perfect uddered. 397R raised calves until age 19. 0153 has as much performance, muscle and maternal as any bull we have raised. Dam 5291 is exceptional (her 3rd sale bull). 0153 is HERD BULL MATERIAL!

Again another 6720 son that deserves a second look. Growth, muscle and overall eye appeal. Consider his dam 0178 mothered bulls in 2006, 2007, 2008, 2010, 2011 and now in 2012. Her sons to date have averaged \$4,820. Her daughters are all keepers. Her worth and track record is undeniable! Buy 0097 he'll add growth, eye appeal and don't sell the daughters! HERD BULL.

Lots 3 and 4 - Sire: 6489 was used on heifers for years and his calves were all unassisted! As 6489 matured he just physically got too big for heifers. 6489's calves all have the same muscle pattern - big rumps, loins, heart girth and capacity with that very distinctive, neat, tidy, small head (that's why he calves so easy). The top side of 6489 goes back to Rambler 1000, who goes back to Umpire 1000 (there were hundreds of daughters registered and they were flawless). The 75L daughters in Soo Line's Red dispersal averaged over \$20,000 and topped at \$36,000. Chief 75L sired our 5278 sire that sired many bulls for the 2012 sale. 5278 is now 7 years old and is flawless and his daughters have impeccable udders. The bottom side of 0125 goes back to 1010B who is a mainstay female producer for our herd. The bottom side of Lot #4 has 892 and 1010B. We have hundreds of cows that have both 892 and 1010B (they are consistent, good uddered and above average producers). Buy Lot #3 and #4 to calve easy and add muscle shape, performance, and maternal that will be unmatched!

Lots 5 and 6 - The top side goes back to Fire Chief 75L and they are mothered by 1/2 sisters going back to Marias. These two soul mates are maternal power houses. 5278 (sire of Lot #6) is still going strong at 7 years of age and is perfect footed. 5278 sired 7037 (Sire of Lot #5). 7037 is a 2600 lb. bull and has as much muscle as any exotic bull. He is not only a beef bull, but is perfect footed. Ask Brent Weiss or Dr. Doug Mann - they will give you a candid answer. I would like to have Fire Chief 75L & Marias 984J breeding in every cow I own. They are good footed with beautiful, level udders with teats the size of your thumb (even as older cows). Lot #5 and #6 will calve easy, add lbs., but the bonus will be the daughters.

Consider- Sire 2167 bred cows till age 8 but failed the semen test at 9 yrs. of age. He could still out run any saddle horse on the place when he headed for the bush. 2167 has sons in 2012 sale and they are worthy female producers. 0177's dam is still here to calve in 2012 at 13 yrs. old and will last a couple more turns. 9130 never sets the world on fire but consistently raises above average calves and I don't remember ever messing with her. She is my kind of cow. The 2167 daughters are moderate framed, easy fleshing, heavy milking range cows that do their own thing, again- trouble free- I LIKE THAT!

Consider the Dam's side of 0176. I talk a lot about cows, cow families and bulls that sire the kind of cows that work for us. Red Flyaway Rambo's Arnold 17A is sired by Rambo 502 (probably as consistent a producer for lbs. and females - hundreds of daughters) When we A.I.'d in the late 90's and early 2000's we used 800 straws of semen off 17A. We loved his daughters. We had heifer customers that had pot loads of 1/2 sisters (they worked). Probably 75% of our cows have 17A somewhere in their pedigree. Need I say more?

Take notice: a 3 star heifer bull off 6489! He needs no more comments.

Four half brothers with moderate birth, good growth and eye appeal. Consider the Lot #14 - Dam 3240 mothered Lot #1 in 2009 and Lot #1 in 2010. 0430X could be the buy of the sale. He was born June 27th (Not bad).
