It is with a great deal of enthusiasm we welcome you, our friends and valued customers, to

Only The Good Ones Sell...

A lot of water has gone over the dam in the last 33 years. As I think about it; that is dam close to 1/3 of a Century. Mercy!

Winter hit again with vengeance and one could not help but wonder is this the opening act of the sequel "Winter from hell 2013". But it has released its grip a tad. Snow load, broken rafters in calving barn have been repaired and when I get time, I will trace my lineage to see if there is some Amish way back on the extended pedigree. Just saying the barn roof repaired very nicely.

The sale offering this year contains many breeding pieces and a few rare finds. The bull pen, smaller in quantity is bigger on quality and I am sure you will agree.

The heifer divisions are mouthwatering. These are heifers from the heart of the herd that can and will be competitive on the tan bark or front pasture breeding pieces. Either way these heifers should surge your program forward.

We at Early Sunset thank you for your trust and confidence in our program. Please accept this as your personal invitation to be with us Feb 28, 2014.

JIM GRANT

Jim & Peggy

Also we would like to welcome a familiar face and valued employee, Cory MacFarlane to the Early Sunset team. Cory (Charles) has vast knowledge of the program and will assist you if possible. He can be reached at (306) 441-7932.

OBI Welcome

OBI is once again pleased to be working with Jim & Peggy Grant from Early Sunset Ranch in their Annual Bull & Female Sale. The sale title is "Only The Good Ones Sell" and it is true at their place and no exception this year.

The bulls offered are primarily new sires to their repeat clients with such sires as Young Dale Xcaliber 32X and a variety of A.I. sires used to represent new genetics in their herd and yours. The Supreme 44W's and Chisum's were very well accepted last year. Again, Early Sunset continues to be very aggressive in purchasing top end herd bulls or gathering very marketable semen. The Simmental/ Angus Bull Division has 2 new herdsires that Early Sunset Ranch had a chance to obtain semen and they are sure glad they did. High Voltage and Mr Hoc Broker are 2 bulls from the Hartman Cattle Co. program in the states and they have done a wonderful job with the Early Sunset brood matrons. The marketability of these new Simmental genetics should not be taken for granted.

The females selected for this year's sale come right off the top of the Early Sunset program and when visiting with Jim, they are just hard to part with. The opportunity to obtain top end genetics from a progressive breeder like Early Sunset is one that should not be taken lightly. He has taken some of the paternal sisters across the line and had wonderful success marketing them. His program continues to grow very rapidly and the progeny on display this year will impress all.

We at OBI are very familiar with the Early Sunset program and if you need any assistance, please do not hesitate to call us, Jim, or any of the sales staff. See you at Edam, SK. Feb 28.

Optimal Bovines

Bull Development Program

Bulls are developed on high roughage ration in large acres to ensure their freedom is not compromised result in sound herd bulls. Our goal is to engineer bulls that are athletic, sound, and ready to work in any commercial environment.

Early Sunset Bull Guarantee

Early Sunset guarantees to provide you with a sound, fertile bull capable of servicing a reasonable number of cows. Should your Early Sunset bull fail to be a satisfactory breeder, he will be replaced with a bull of equal value, or a credit will be given towards the purchase of another Early Sunset bull. If you have a problem with our bull please notify us immediately.

Early Sunset \$2 Dollar/Day

From May 1 we will charge \$2 per/ day for keeping your bull for a reasonable length of time. We will keep your bulls under good management and care, developing them as we do our own breeding stock. If your bull(s) are left in our care and management we require you insure them against death.

BULL WARRANTY

We guarantee to provide you with a sound, fertile bull capable of servicing a reasonable number of cows. In the event that your bull is a non-satisfactory breeder the seller will not, under any circumstances, be responsible for more than the original selling price of any bull or female sold in the sale. The consignors will not provide replacement or credit for physical injury or mismanagement. Therefore we stress the importance of insurance on your bull. An insurance agent will be available on sale day.

**NOTE: BULLS CAN BE WINTERED UNTIL MAY 1ST
AT NO CHARGE BUT ALL BULLS ARE TO BE INSURED**

Xcaliber 32X is a massive, stout bull that moves so easy for a powerhouse. We knew he would fit right into our program and that he did siring bulls with size, lots of bone and big hips with great heads on them. This sire group will be very popular with all.

We were fortunate enough to obtain some High Voltage semen and we were very pleased with the outcome of his progeny. He is a large scrotaled bull that is homozygous polled with absolutely flawless design and structure. He has tremendous performance being only 80 lbs at birth and a weaning weight of 903 lbs. This will be the first progeny to sell from High Voltage in Canada. Owned by Hartman Cattle Co. & Conley Cattle Company.
