## **RED ANGUS DISPERSAL**

**THURSDAY  
DECEMBER 17, 2015  
1 PM, CLYDE, ALBERTA**

## **OBI WELCOME**

**O**ppportunity – You Bet!!... What better place can you buy special Red Angus Cattle? Family owned and operated while enjoying a great family life; the Glessman's have poured their heart and soul into developing this great herd of cattle. The herd's quality is simply superior with great uddered cows that are powerful. These broody cows are special from their feet on up. This herd meets all commercial needs with the extra performance that is so much in demand.

Study the Herdbulls selling; Red Glesbar Capone 28Y, heading up the group. His proven track record proves that he sires both performance bulls with large testicles and fabulous daughters whose superior production ability is well documented. Red Glesbar Merlot 48A is a breed sensation from black parents: the bull with more red meat in him than any other. His first 2 daughters are special.

The cow herd is a credit to the great line up of reference sires and current bulls being used. This young offering is certainly special headed up with a great set of bred heifers. If you are adding to an already great program or wanting to start a new herd, the Glesbar Cattle will not disappoint the most critical of buyers.

Visit with Glen and Darlene & Family – Preview the cows and make yourself familiar with the offering. The cattle market is certainly at an all time high as is the strength of the CAA. The CAA Membership continues to grow as the breed remains the most popular.

Remember that this sale primarily represents 5 cow families – it is very easy to understand why the cow herd is extremely uniform. This is the Best Opportunity to purchase Red Angus Genetics that will keep you as leaders in the industry.

*Rob Holowaychuk, OBI*

**VIEWING OF CATTLE:**

Viewing of cattle at farm can be happen any day leading up to the sale. Cattle will be displayed at North Central Livestock Ltd. from **TUESDAY DECEMBER 14 TO SALE DAY.**

# OUR HISTORY & WELCOME

Glen and I have lived our entire lives with and off of the value of Cattle.

The Glesbar herd name was started by Glen's parents some 60 plus years ago with a very functional and successful Horned Hereford herd.

I was raised milking cows with my parents and siblings, along with the dairy they had a small commercial herd which later turned into a large purebred Angus herd.

With the influence of our father's strong cattle sense we built our own herd.

In the fall of 1986 we registered our first Angus Calves with the Glesbar bar prefix, and have been building ever since.

Our main objective over the years has been to concentrate on the strength of our mother cows. Having milked cows for many of my younger years I have a great appreciation for a proper udder and milking ability and what goes along with that. Glen is our body and foot structure man and has strove to find bulls that would pass his inspection which is no easy task. With the two of us working together we are very proud of the Angus herd we have today.

Our herd is basically built on 5 strong cow families 3 Red, Lakima's, Syringa's and Leah's and 2 Black's Barbie's and Miss Burgess's.

The beginnings of our Cow Families consist of three dispersal purchases, Red Towaw Lakima 14M and four daughters and granddaughters were purchased privately from Karl Lyons. Karl had purchased 14M from Towaw as a junior project.

Genel Miss Burgess 44M was purchased at Sjogrens 1988 dispersal sale.

Red Maybridge Leah 20X along with her daughter 13Z were purchased in 1991 at the Romar dispersal.

These three purchases along with 2 females from Geis Angus, Geis Barb 155T, and Red Geis Syringa 160A.

These 5 females have been the basis of our Glesbar herd.

Notable Sires Purchased and used over the years are Red Royal Patriot 123Z, Red Roselea Beau 142D both out of the Royal Valley Bull Sales. Red Towaw Powerlite 28X and Red Towaw Expansion 169G from Towaw Red Angus. Red DMM Traction 98R, Red Geis Aviator 67T and Geis Kodiak 21T, and Red Northline Fat Tony 604U. We also were lucky enough to be original semen package purchasers of Red YYY Knight 640F, and Red Towaw Indeed 104H.

Other than these sires we have concentrated on using our own bulls from our best cows, which has worked in our favour.

Over the past 30 years we have had awesome times with our cattle made many new friends and had some very prosperous partnerships.

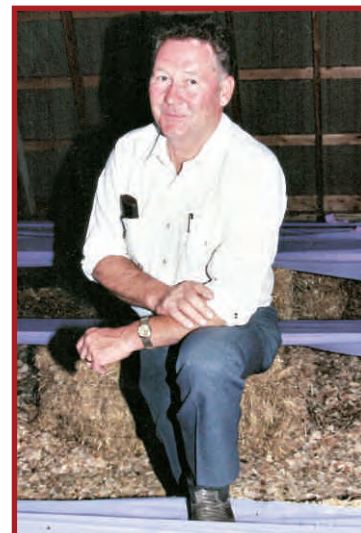

Red Roselea Beau 142D won National Champion Red Angus Bull in both 1995 and 1996, he not only was a champion in the show ring, more notably he is a an elite Sire with 12 daughters being elite dams.

Red Northline Fat Tony 604U won Denver Champion Red Angus bull in 2011.

We must admit that the most exciting thing was being the breeder and part owner of Red DMM Glesbar Barndance 35X who was a champion many times over, the most prestigious of all, he was named Alberta Supreme Champion Bull at Farmfair International 2012. This is the ultimate high of our history. Now that we have calved his daughters we know he is a true Champion.

Along the way we raised two awesome children, Kurt born in 1988 and Amy in 1989, these kids were raised with love and work ethic. They knew that the cows and work always came first before play, so consequently there wasn't a lot of play time. We are proud to say they have grown up and became really good people we are and always will be very proud of.

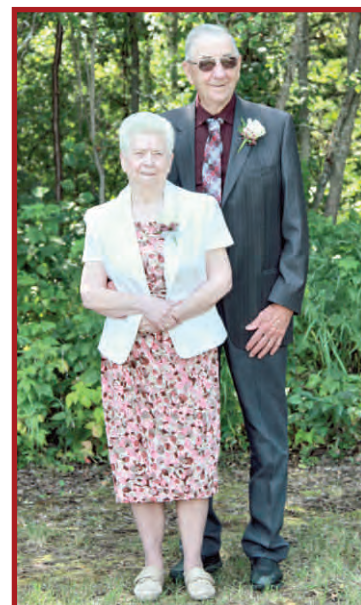

Kurt's life path has taken him away from the farm, he is an awesome young man and everything he does he does well.

DON GEIS (DARLENE'S FATHER)

ERIKA GEIS (DARLENE'S MOTHER)

RUDY & MARIE GLESSMAN  
(GLEN'S PARENTS)

PUREBRED BREEDER OF THE YEAR 2015

KURT GLESSMAN

CODY, AMY, LINCOLN & AVERY MILLER

ALLEN FRESHER

Amy married Cody Miller in 2011, they have given us two beautiful grandchildren, Lincoln Alec in 2013 and Avery Marie in 2015. They are in the cattle industry with Cody's parents.

Amy and Kurt have a few Angus females and actively take part in breeding and marketing decisions.

As I write this with mixed feelings, over the past year of deciding whether having this sale is or is not the best thing for us to do. We have struggled with the best way in which to do this, if you any of you folks really know Glen, you know that he would not be a happy man if he was completely cow less, because he is a true cowboy at heart. Because of the dry conditions this year we have made a few changes to our plan of action. We have decided to keep our 8 year old cows and older, selling all of our females and their off spring, W's and younger. This will leave us with about 30 older females for our base for a small commercial herd.

Glen said it the best one day when we were lamenting about the pro's and con's of our decision. He said this "My head is saying I am not ready yet but everyday my body is telling me I am."

In closing, we have been doing what we love for the past 30 years, trying our darndest to raise the best mother cows there is, and our herd has never looked better!

*Glen & Darlene Glessman*

P.S. We feel the need to add a short post script to our history.

It has been a very stressful summer, not unlike the most of us in the business, dealing with the drought. We are very worried about how this drought is going to affect the results of the sale of our life's work. We sometimes wondered if the sale should be put off for another year. Unfortunately in mid July our mind was made up for us with the passing of our true friend, neighbour and land lord Allen Fresher. We have been lucky enough to rent Allen's 2 quarter sections for the last ten years. With these extra acres we have been able to grow our herd numbers to what they are today.

Now that his estate has put this land up for sale, our hand has been forced and it is necessary to go ahead with our sale. We miss you Allen, the community is not the same without you!

### SELLING FULL INTEREST & FULL POSSESSION SELLS WITH 50 STRAWS OF IN HERD USE SEMEN

We have used Capone extensively over the past 3 years with totally amazing results. He is the best Fat Tony son out there, his dam is from our Syringa cow family. We calved his first daughters this spring and they couldn't be better. They are good moms with beautiful udders and lots of milk. His performance numbers are above average with a good milk number to boot. We are offering progeny and service to Capone 28Y.

We chose a couple of cows to hand breed Merlot to as a yearling, the results left us wanting more. Lot #1A and Lot #71A. Consequently he was a busy boy this spring, we used him both artificially and natural services, he stayed out with a group of females until the end of July coming in looking as good as the day he went out. Merlot is a DMM Creed 75W son and Glesbar Miss Burgess 42W a black red carrier Lot #81, his maternal grandsire Red Glesbar Knight 73P, a Knight 640F son that has several daughters in the offering.

Sams Retro 18B is a TLA Samurai 10U son, many of you may not be familiar with Samurai 10U, and if we go back to 1987 he was Champion Angus Bull that year at Farmfair in Edmonton, AB. It was at this Show that Samurai caught the eye of William McLaren of Netherton Angus, of Scotland. In a quote from William McLaren "Samurai was recognized by many breeders as the best bull to come from Canada and the one which was regarded as saving the breed when it was at its lowest ebb. He sired more Champions at the major Shows in the UK than any other bull in the modern era." Here in Canada Samurai has sired many, but to name a few, Red KBJ Sam's Prospector 133Z, a major sire at Royal Valley and Champion in his own right. Prospectors Flush mate Red KBJ Lassie 133X was owned and shown by the "two Bryan's" Bryan Mackenzie and Bryan Walters she in turn raised Presidio 5Z. Sam's Retro 18B's dam is Lot #82 she is also the dam of Reference Sire GBCC 102Y. We hand and pasture bred with 18B this spring. He is a larger framed bull with an out cross pedigree, we have all confidence that he will produce calves with performance and style, and maybe a little more size that some may need.
